

My Village

My village is the loveliest village in Punjab. It is situated between Kot Sultan and Layyah .There are green mango trees in my village. There are also various crops here. There is greenery everywhere. The place looks like a paradise on earth. The meadows and flowery bushes present a lovely sight. Most of the villagers are farmers.

The other some are shopkeeper, factory workers, cattlemen and government servants. Nearly, all the villagers send their boys and girls to nearby schools. They also go to college. There are four high schools and one college in my village. There are four play grounds where children play games. There is a post office, three union councils and a dispensary in it. My village is an ideal place. The people are simple, honest, hardworking and hospitable.

A Rainy Day

In our Country, summer is troublesome and unbearable. We are in dire need of rain, I remember one day in the month of July, it was stuffy and the temperature reached at 500 centigrade. Then everybody began to pray to God for the falling of rain. We were glad when dark clouds appeared in the sky. Very shortly, dark clouds covered the sky.

The cool wind began to blow then a heavy shower began to fall. All heaved a sigh of relief. Young boys and children came outdoors and had a bath in the rain. The temperature fell at once and heat-wave came to an end. The rain lasted for three were washed and looked so fresh. There was rain water everywhere. We thanked Almighty Allah who showered his blessing in the shape of rain.

How do I clean my room?

It is the holy saying of our beloved prophet that cleanliness is half of the faith. Cleanliness is next to godliness. Islam emphasizes cleanliness because it keeps us healthy and disciplined. So I try my best to keep my room neat and clean. For the purpose, first of all, I sprinkle some water on the floor. When it gets dried a little, I sweep it with broom.

I do dusting on the walls of my room. I clean my room daily. I set my bed sheet properly. I usually put uniform cleanliness. Clean my things and room other of almost my clothes daily daily. In use the in cupboard. I correct know that order. I arrange God I put loves my books bag people at on its the who proper bookshelf. Practice place. In purity this hang way and my!

The Game I like the Most

Now a day's cricket is liked throughout the world. It is a very interesting game. It is one of the mostly played games in our country. There are two teams in a cricket match. Either team consists of 11 players. This is an outdoor game played with a bat and a ball. One of the teams is on batting while the other is on bowling and fielding. The team that makes more score in batting wins the match in the end. Every player comes to bat or bowl on turn. If a player misses a ball and let it go to the wickets, he loses his turn. He may also lose his wicket while making runs or hitting the ball if it is caught by player of the other team. There are two empires at the ground whose decision must be followed by players of both teams. He observes the bowler and the batsman to follow the rules. Cricket is really a very good game for my physical and mental health. This game makes me strong and active through fielding, batting and bowling.

A Roadside Accident

Accidents have become a regular feature all over the world. Every day news-papers carry so many stories of accidents. In my opinion, there are three reasons of these accidents.

1. The roads are narrow and in bad condition.
2. The drivers drive their vehicles at high speed.
3. The people do not abide by the traffic rules.

On 12th instant, I was returning from school at afternoon. I saw a car coming at a high speed near the civil hospital. At the same time a motor cyclist appeared from the other side. The car hit the motorcycle. The motorcyclist was thrown away. He was badly injured. The motorcycle was broken into pieces. Many people gathered there. They were sad at the accident. Soon the police arrived. Rescue 1122 came and took the injured person to the hospital. The driver of the car was arrested. The police officer took down the statements. All the people prayed for the safety of the injured person.

A Visit to a Hospital

Yesterday I was not feeling well. I was suffering from high fever. I went to a nearby hospital. The doctor examined me. I told him that I had high fever, there was pain behind my eyes, and I had a severe headache. I told him that I had taken some medicines but to no effect. After examining me, he recommended me some medical tests. My medical reports diagnosed me of Dengue fever. The doctor told me that as my disease was in the early stages, I could be cured in about two weeks.

He prescribed me medicines. He told me that I should take juices, soups, tea etc. The doctor told me to adopt some precautionary measures such as spraying of insecticides in the house and to use mosquito net. I got rid of the Dengue fever in couple of week. I told my friends about the precautionary measures that were to be adopted. I am healthy now and fully recovered.

My Favorite Hobby

This age is the age of dearness. So a man has to do a lot of work to meet his needs and desires properly. Usually he has to work beyond his capacity. Thus he faces anxiety, worries and griefs. Naturally he wants some relaxation and recreation. Then he chooses a certain hobby to kill his time because a hobby is a pleasant activity. Hobby is a work that we do in our spare time. Gardening is my hobby.

It gives me pleasure and enjoyment. It keeps me physically fit. I have a small beautiful garden in front of my house. I have grown beautiful flowers and plants in it. I water them regularly. I enjoy their sweet smell. I spend all my time in it. I look after them with care and love. This hobby gives me pleasure. This hobby removes my worries. Beautiful flowers refresh me. Gardening is a very useful hobby.

My Dream of Life

Sometimes, a man himself is reasonable and good in his behavior but some despotic powers compel him to do wrong. A pious man can do nothing against the orders of his conscience. In this situation, he dreams of a world which is free of compulsions and crimes, pride and prejudice. I dream of a world which reflects Islamic code of life. In which there is no discrimination, no cruelty and even no rule of "Might is right." I dream of a world in which there would be justice and equality. I dream of a world which should have clean environment everyone should be free to go and come as he desires. He should have religious freedom. In which, There would be brother hood. Politeness, free education for all, piety and goodness.

I dream of a world in which there would be no nepotism, disintegration and should get a job according to his ability. There should be a democratic set up in the country for the promotion of democracy. There should be peace and happiness everywhere. May God bless us with such an honest ruler who would bring positive change in the present set up of the country. All are equal before law. There is no difference of rich and poor. So I dream of a life at happiness, a world which should have all facilities of leading life peacefully.

Science is a Blessing

Science is a Blessing (standard) Science means systematic and formulated knowledge or a skillful technique. Science has made a lot of progress in every walk of life. It has brought a great revolution. It has changed the world with its inventions so far. In this age of science, man has invented a lot of useful things with its help. Take any field of life, science has blessed it with its wonderful inventions such as electricity, airplane, railway engine, mobile phone, internet, refrigerator; television, video cassette recorder. Air-conditioner, laptop, computer etc.

Man has made a lot of progress in agriculture, commerce, industry, medicine and in every walk of life. Science has made this vast world a global village. It has shortened the distance and brought men close to one another. It has introduced many things of comfort and ease for man. Whatsoever problem we face, can be solved by. The help of science. So we can call it a blessing for man.

A Book Fair

Thousands of books written by great writers are left unseen or limited to publishers. Most of the readers are unaware of their value. Thus elevated ideas of the great thinkers are left unknown to us. Some people do not have enough money to buy the books of their choice. 'A Book Fair' is a good chance of buying books on 50% concession. Last Sunday, my father took me to visit the Punjab Library where a book fair was organized. I was much surprised to see the stall of many publishers. Every stall kept a large collection of books.

I tried to look for the books I desired. One is tempted to buy all books but my father allowed me to buy only two books. I after like dictionary so I bought a dictionary and a book about the life of Allama Iqbal. My father bought some books of theology. We got out of the great rush of people and returned home happily.

Pakistan Development in Satellite Technology

Space technology is necessary for the security of the country.

Pakistan space program was started when SUPARCO was established on 16 September 1961 the main purpose of suparco was to research and make up development in space sciences technology. Pakistan launched its first satellite from China in 1990. Its name was BADR-1. In 2001 Pakistan launched another satellite named BADR-2.

It was the earth observation satellite. In 2002 Pakistan launched first geostationary satellite named PAKSAT-I.

Pakistan first communication satellite was launched on 12 August 2011. Pakistan's R.S. Satellite-I was launched on 9 July 2018. Pakistan progress towards the space program is effective. Yet more Institutions should be built to strengthen the space program of Pakistan.

What you do Every Day

Something is better than nothing. Idleness creates boredom.

We should do some or the other work. If we do something good, we will find its better reward. To my thinking, three things are necessary to be done daily. These are: saying prayers, reciting the Holy Quran and serving the parents and pressing their feet every day, I get up early in the morning. I go out for a walk daily and take exercise there. I take bath daily and feet fresh.

I say my prayers five times a day. I recite the Holy Quran daily. I learn, more or less, one verse from the Holy Quran by heart and also its meanings and translation. I go to school daily when I return home. I water the plants of my orchard. I do help my parents in their household work before going to sleep. I press the feet of my father. I help my mother in culinary work.

My Favorite Poet

A poet is a person who writes poems to express deep feelings. In our country, there are many poets who have written on various subjects. The most famous of these poets is Allama Iqbal. He belonged to a religious family. His National M.A. Love from Poet of Government He Islam was born in College his at Sialkot blood. And He on then9th was went of educated November to Europe. At Sialkot 1877. He became and in Lahore. A barrister He and came back to Pakistan (then India). His main interest lay in poetry. He, therefore, devoted himself to poetry. His poetry is full of hope and inspiration. His poetry also reveals his great love for Allah, Muhammad (PBUH) and Islam. He awakened the Muslims from their deep sleep. He reminded them of their glorious past. He worked closely with the Quaid-e-Azam. He gave the idea of Pakistan. He felt that the Muslims could live in peace only after having a separate homeland. He passed away on the 21st.

Your feeling if you are trapped somewhere alone after a disaster

It was in the month of December, I was sitting with my friends in Kaghan. We were chatting with one another. Suddenly I felt somebody pushing me. The ceiling fan, windows and door of the room started shivering. I felt the ground vibrating under my feet. All my friends ran out shouting "earthquake" earthquake". The people were running here and there for a shelter. The intensity of earthquake was gradually increasing. I was sitting alone in the room.

I was frightened and did not know what to do. I saw houses collapsing on the ground, the mountains were shivering like a leaf. I was about to lose my senses. The people were shouting at me to get out of the room. When I came out, I saw a strange world. It was a terrible earthquake. The roads were totally damaged. The houses were demolished. After some time, Silence prevails everywhere. The earthquake had stopped. I thanked Allah and came back my home. That incident will remain in my mind as a terrible night mare.

A Character Sketch of Myself

My name is Ali. I am 12 years old. I am about 5 feet tall. I have a strong body. I wear neat and clean clothes. I read in class seven. I always stand first in the class. All the teachers like me for my intelligence and good habits. I always like to help the student's poor in studies.

I am also fond of games. I play hockey in the evening.

Gardening is my hobby. I spend some time in my garden daily. All my friends, relatives and neighbors are proud of me.

I want to serve the people of my country. I work very hard to achieve my aim in life. My parents always pray for my success.

Eid-ul-Fitr

Eid-ul-Fitr is a great religious festival of Muslims. It is celebrated on 1st Shawal after the completion of Ramadan. People start preparation for the celebration of Eid from the very beginning of Ramadan.

Everyone wears new clothes, offers the prayers, greets one another and eats vermicelli. After fasting for one month, people can really understand the problems of the needy and the poor. It is also necessary to give "Fitrana" to the needy before celebrating Eid-ul-Fitr. Therefore, Eid-ul-Fitr is also an event of sharing the joys and sorrows of the others.

Use of Plastic Bags

Use of plastic bags is a serious problem of our modern age. Plastic materials are non-biodegradable. They do not easily dissolve. We mostly prefer to use plastic bags, as they are easy to carry but they are harmful. After using them people throw them into the streets or on the roads.

It leads to the blockade of sewage system. Some uneaten pieces of food in it get poisonous and can cause death to the animals which eat them. It also causes land and water pollution. Plastic bags are very difficult to destroy. So, it is better to say "No" to plastic bags. Instead of them we should use paper bags.

A Visit to the Zoo

Last Sunday we decided to visit the zoo. My parents were with me. We left for the zoo at 12:15pm in the afternoon. We reached there at 1:00 p.m. We bought tickets to enter the zoo. It was a very beautiful place. There were different types of birds and animals in colorful cages. As we move ahead, we saw a pond in which ducks were swimming. My father guided me to where an elephant was kept. I was very happy to see the elephant. Then we moved to the cages of lions, we threw some pieces of meat into their cages. We stayed in the zoo for an hour. We came back home at 3.p.m. I was very happy that day.

Early to bed and early to rise make a man healthy, wealthy and wise. Morning walk is good for health. I get up early in the morning. I say my prayer and go to a park. The park is full of people. I exercise there. The morning breeze is very refreshing. I take long breaths. The green grass and trees look very beautiful. I enjoy the birds chirping in the trees. Then I come back home. I take my breakfast. I change my clothes and go to school. Morning walk keeps me active and fresh throughout the day.

A Computer

Necessity is the mother of invention and Computer is one of them. It is rightly said that computer is one of the most wonderful invention of the 20th century. It has great importance because use of computer has reached almost all walks of life. The modern life includes information and contacts with people around the world. Computer has made this world a global village. A computer is a very useful machine. It has three parts; monitor, C.P.U and keyboard. It has many languages.

It is a wonderful invention. It can solve many problems. I have also a Computer. I like it very much. I keep it carefully. It helps me in my studies. It keeps me in touch with my friends and relatives through internet. Whenever I am tired of my studies, I enjoyed myself of music and games in it.

Computer is used in every field of life. It is used in hospitals, laboratories, and offices. It keeps records. I am very ambitious to become a software engineer in future.

A House On Fir

It was 24th of June, 2012. It was Friday. I was reading in my room. I saw many people running towards the spot. Suddenly I heard a noise in the street. The people were crying fire! Fire! I came out of my room. I reached the spot. I saw that Akram's house was on fire. More than half of the building was on fire. It was a horrible sight. The people looked terrified. The flames were rising to the sky.

The women and children were weeping bitterly. They were crying for help. The people took pity on them. Some of them were throwing water on the fire. Some of them were throw sand on the fire. I rang up the fire brigade. It reached at once. It brought the fire under control in no time. The people thanked God. There was a great loss of property but there was no loss of life. May God save us from such horrible incidents!
